

“Because their memory deserves to be seen and remembered.”

Why Do Cemetery Markers Need To Be Cleaned?

Over time, cemetery markers are exposed to the elements—rain, wind, sun, lichen, moss, and pollution. This natural buildup can cause stains, discoloration, and even surface damage. Regular cleaning helps preserve the beauty and integrity of your loved one’s memorial for generations to come.

Cemetery Marker Cleaning Service does the cleaning for you with a safe biodegradable specifically designed cleaner for cemetery markers that will not harm the cemetery marker.

BEFORE

5 AUTHORIZATION & WAIVER — I authorize Cemetery Marker Cleaning Service LLC to clean the cemetery marker(s) listed above. I also understand that CMCS only uses a specifically designed cleaner that is biodegradable, safe for the environment, and that their cleaning will not harm the cemetery marker; no bleach, acids, wire brushes, or harmful scouring pads will be used; and that a low-PSI power washer will be used in the cleaning process. If a cemetery marker is deemed unsafe to clean without damaging the cemetery marker, it will not be cleaned by CMCS and the customer's funds will be returned. **MEDIA RELEASE** — I grant Cemetery Marker Cleaning Service LLC permission to photograph and/or video the marker(s) before and after service and to use those images and recordings on its website, social media, and in marketing or promotional materials. No family names or personal information will be shared beyond what already appears on the marker unless given express permission to share story of the deceased.

☐ I have read and agree to the authorization and waiver above. ☐ I grant the media release described above.
